1 RISK FACTORS

Investments in notes always involve a certain degree of risk. In this section a number of risk factors are described, both general risks attributable to Corem Group's operations and main risks linked to the Notes in their capacity of financial instruments. A number of factors affect and may come to affect Corem Group's operations, result, financial position and the Notes. The intention is to describe risks that are related to Corem Group's operations and thus also Corem's ability to fulfil its obligations in accordance with the Terms and Conditions for the Notes.

Before making a decision to invest in Notes, any potential investors should carefully consider the risk factors outlined below, as well as any other relevant information such as the final Terms and Conditions of the Notes and any public available financial and other information of Corem. In addition, an investor must, alone or together with its financial and other types of advisors, engage in a general evaluation of external facts and general information about the property market and property companies from its own perspective. An investor should have adequate knowledge to evaluate the risk factors as well as sufficient financial strength to bear these risks. The below summary of risk factors does not claim to be complete, nor are the risks ranked in order of importance.

Additional risk factors which are currently unknown or which are currently not deemed to be material may also affect Corem Group's future operations, result and financial position and thus also Corem's ability to fulfil its obligations in accordance with the Terms and Conditions.

Risks related to the operations

Macroeconomic factors

The real estate market is to a large extent affected by macroeconomic factors such as the general economic development, growth, employment, level of production of new premises, changes in infrastructure, population growth, inflation and interest rate levels. Economic growth affects the employment rate, which is an essential basis for supply and demand on the rental market and consequently impacts vacancy rates and rental levels.

Inflation expectations have an impact on the interest rate and thus affect the net interest income. Interest expenses on debt to credit institutions are Corem Group's single largest cost items. In the long term, interest rate changes will have significant impact on Corem Group's earnings and cash flow. The inflation also impacts Corem Group's costs. Furthermore, changes in interest rates and inflation also impact yield requirements and by that, the market value of the properties' market value.

A number of Corem Group's lease agreements are wholly or partially linked to the consumer price index (CPI), i.e. the rent according to the lease agreements is wholly or partially adjusted in

accordance with the inflation. There is a risk that Corem Group may not always be able to negotiate lease agreements that wholly or partially compensate the inflation. If Corem Group's costs increase more due to inflation than Corem Group's compensation due to index adjustments, this would have a negative impact on Corem Group's earnings.

Higher vacancy rates and interest rates, increased costs and lower rental rates could have a significant negative impact on Corem Group's business, financial position and earnings.

Geographical risks

The supply and demand of properties and by that, the return on real estate investments differs between geographical markets and may develop differently within the geographical markets. Corem has a well-diversified property portfolio with properties in different geographical markets. However, the demand could decline on most or all geographical markets which could have a significant impact on Corem Group's business.

Rental income and rental development

Decreased occupancy rates and rental rates will, regardless of reason, affect Corem Group's earnings negatively. The risk for great fluctuations in vacancies and loss of rental incomes increases with the dependency on single large tenants. If Corem Group's larger tenants do not renew or extend their lease agreements when these have expired, it could in the long term lead to a decrease in rental incomes and an increase in vacancies.

Corem Group is dependent on the tenants paying their rents on time. Corem Group's earnings could be impacted negatively if tenants stop their payments, or otherwise do not fulfil their obligations.

Operating and maintenance costs

Operating costs consist mainly of tariff-based costs such as costs for electricity, sanitation, water and heating. Many of these products and services can only be bought from one service provider, which may affect the price. The costs for electricity and heating have the largest impact on the result. To the extent increases in such costs are not compensated by terms in lease agreements, or by renegotiation of lease agreements in order to increase the rent, Corem Group's net operating income may be impacted negatively.

Maintenance costs are attributable to actions that intend to maintain the property's long term standard. Maintenance costs also include costs for tenant adjustments related to new or prolonged or expanded lease agreements. These costs accounted for as costs in the income statement to the extent that they constitute reparations and substitutions of smaller parts. Other maintenance costs are activated in the balance sheet as capital expenditures when the expenses arise. Corem Group

has a plan for the implementation of maintenance measures that are deemed necessary. Unexpected and large renovation needs may however affect Corem Group negatively.

Credit risk

Credit risk is defined as the risk that Corem Group's counterparties may not fulfil their obligations to Corem Group. The financial position of Corem Group's existing and potential customers may deteriorate to such extent that they become unable to pay rent on time or perform their other financial obligations. It could happen that Corem Group's counterparties are not able to perform their obligations towards Corem. Furthermore, credit risk within Corem Group's financial operations arises for instance from excess cash placements, entering of interest-rate swap agreements and obtaining long- and short-term financing under credit agreements or capital market financing.

Interest risk

Corem Group's capital structure results in interest expenses being the main costs item. An interest rate risk is defined as the risk of a negative effect on the result and cash flow due to changes in the market interest rate. The interest expense is mainly affected by the from time to time applicable level of market interest rates but also by Corem Group's strategy as regards hedging the interest rates. The market interest rates for long-term interest periods are mainly affected by the expected inflation rate, where pricing of bonds and certificates are determined by the supply and demand. The interest rates for short-term interest periods are mainly affected by the Swedish National Bank's (Sw. Riksbanken) actions and decisions relating to its repurchase rate (Sw. reporäntan), which is a monetary policy rate instrument. Corem Group currently hedges its interest rate exposure to a large extent, but it cannot be ruled out that Corem Group's derivatives portfolio may be changed, which may result in Corem being more sensitive towards changes in the short-term market interest rate. This could then adversely affect Corem Group's operations, result and financial position. Increased market interest rates over time will also increase interest expenses for Corem Group, which means that Corem Group's operations, result and financial position could be adversely affected.

Refinancing risks

Refinancing risk is defined as the risk that financing may not be obtained, or could only be obtained at significantly increased costs. Although Corem today estimates that the refinancing risk is small, it is not sure that future refinancing is possible at all, or that it is possible on terms that are attractive for Corem. Corem is dependent on its ability to refinance existing credit facilities and capital markets financing at their due date and to obtain additional financing at market terms in connection with for example property acquisitions. In case Corem is unable to refinance existing facilities or obtain additional financing at market terms, as a result of an insufficient supply in the capital market or for any other reason, it could adversely affect Corem Group's operations, financial position and earnings.

Changes in value of interest derivatives

Basically all of Corem Group's credit agreements have floating interest rates. As part of managing the interest rate risk, Corem Group uses interest derivatives, mainly interest swaps. The interest derivatives are recorded continuously at actual value in the balance sheet and stated as value changes in the income statement. As market interest rates change, a theoretical over- or undervalue of the interest derivatives occur but have no impact on the cash flow. At the end of the duration the value of the derivatives is always zero. The derivatives protect against higher interest rate levels, but also imply that the market value of Corem Group's interest derivatives decreases if the market interest rates decrease, which will have a negative impact on Corem Group's financial position and earnings.

Changes in value of properties

Corem Group's real estate investments are recorded in the balance sheet at actual value and the value changes are recorded in the income statement. Unrealized value changes have no impact on the cash flow. Corem performs a valuation of its entire property holdings quarterly. 25 per cent of the property value has been externally valued during 2013. The value of the properties is affected by a number of factors, partly by property specific factors such as renting levels, rental rates and operating costs and partly by market specific factors such as yield demands and cost of capital that are derived from comparable transactions on the real estate market.

Property related deteriorations such as lower rental income and increased vacancies, as well as market specific factors such as higher yield demand can cause Corem Group to write down the actual value of its investment properties, which could have a negative impact on Corem Group's earnings and financial position. Further, as of December 31, 2013, Corem Group showed a loan-to-property-value ratio of approximately 63 per cent, implying that the assets at that date fully cover the full outstanding interest bearing debt amount. If the value of the properties shows a negative development, other things being equal, the surplus value between the assets and the debt decreases. Less surplus value, i.e. high loan-to-property-value ratio may imply that the probability of recovering the full investment amount in the Notes in an event of default situation is lower than in a situation with high surplus value, i.e. low loan-to-property-value ratio. However, a positive surplus value, regardless of size, does not mean that all or parts of the invested amount in the Notes can be recovered in an event of default situation.

Transactions

All investments are associated with uncertainties, such as loss of tenants, environmental circumstances and technical problems. Prior to an investment an evaluation is performed that aims to identify, and if possible, to reduce the risks that can be associated with the investment. Any future business activities or properties that are added through acquisitions could have a negative impact on Corem Group's earnings and financial position.

Executive management, staff and operational risk

Operational risk is defined as the risk of incurring losses due to inadequate procedures and/or irregularities. Adequate internal control, administrative system adapted for the purposes, skills development and access to reliable valuation and risk models are a good basis for ensuring the operational safety.

Corem Group's employees' knowledge, experience and commitment are important for Corem Group's future development. Corem Group would be affected negatively if a number of its employees would leave Corem Group at the same time, or if Corem Group's administrative security and control would fail.

Competition

Corem Group acts in an industry that is exposed to competition. Corem Group's future competitive opportunities are dependent on, among other things, Corem Group's ability to be at the forefront and respond quickly to existing and future market needs. Corem may therefore be forced to make cost demanding investments, to restructure or to make price reductions in order to adapt to a new competition situation.

Technical risks

Property investments are associated with technical risks. Technical risk is defined as the risk associated with the technical management of the property, such as the risk for construction errors, other latent defects and deficiencies, damages (for example by fire or other force of nature) and pollution. By investing in properties with sound technical standard, either newly developed or recently renovated properties, the technical risk can be reduced. However, it cannot be ruled out that significant unforeseen costs may occur. If such technical problems would occur they may cause significant increased costs for Corem Group.

Legal risks

New laws or regulations, or changes concerning the application of existing laws or regulations that are applicable to Corem Group's business activities or the tenants' business activities could have a negative impact on Corem Group's earnings and financial position.

Environmental risks

Property management and property development have an environmental impact. Corem Group has adopted an environmental policy plan and works actively with environmental issues. The Environmental Code states that everyone who has conducted a business operation that has contributed to pollution, also has a responsibility for after-treatment of the property. If the responsible person cannot carry out or pay for the after-treatment of a polluted property, the person who has acquired the property is liable for after-treatment provided that the buyer at the time of the

acquisition knew of or should have discovered the pollution. This means that claims, under certain conditions, may be raised against Corem for soil remediation or for remediation concerning presence or suspicion of pollution in soil, water areas or ground water, in order to put the property in a condition pursuant to the Environmental Code. Corem has not performed any exhaustive investigation of possible environmental pollution in the property portfolio, but estimates that neither existing nor previous business activities at the properties have entailed any environmental risks that substantially could affect Corem Group's financial position. However, there is no absolute certainty in this respect and any future demands regarding environment may affect Corem Group's earnings and financial position negatively.

Tax risks and deficit deductions

Changes in company and property taxation, as well as other government charges and contributions, may affect the conditions for Corem Group's business activities. Such charges and contributions could be changed in the future. It cannot be ruled out that tax rates will change in the future, or that there are other changes to the governmental system that will impact property ownership. However, in a number of Corem Group's lease agreements the tenant is responsible for the accruing property taxes at each time. Any change in the tax legislation or practice that entails changes to corporate tax rate or changed possibilities for tax depreciations or possibilities to use deductible deficits may lead to a changed tax situation in the future for Corem and may have a negative impact on Corem Group's earnings.

Disputes

Due the Corem Group's business Corem is from time to time involved in minor disputes. None of those are deemed to be significant for Corem Group. However, it cannot be ruled out that Corem may incur higher costs due to ongoing minor disputes or that Corem may become involved in additional disputes with its tenants. A negative outcome of any current or future disputes with tenants could have a negative impact on Corem Group's business activities, financial position and earnings.

Risks relating to the Notes

Liquidity risks

Corem will apply for listing of the Notes at NASDAQ OMX Stockholm after the SFSA approves a prospectus for this purpose. There is no assurance that the Notes are approved for trading or that a liquid trading of the Notes will occur or is maintained. This may entail that a Noteholder cannot sell his or her Notes at the desired time or at a yield which is comparable to similar investments that have an existing and functioning secondary market. A lack of liquidity in the market may have a negative impact on the market value of the Notes.

Credit risk

Investments in notes in general entail a certain degree of risk for investors, including the risk of losing the value of the entire investment. Investors who invest in the Notes become exposed to a credit risk in relation to Corem and the Notes carry a, relatively, high interest, which is to be regarded as a compensation for the, relatively, higher risk an investor carries compared to an investment in Swedish government bonds. The investor's ability to receive payment under the Terms and Conditions of the Notes is dependent on Corem Group's ability to fulfil its payment obligations, which in its turn is dependent on the development of Corem Group's business activities and its financial position. Corem Group's financial position is affected by a number of risk factors, of which a number have been discussed above.

An increased credit risk may cause that the Notes will be attached with a higher risk premium by the market, which would affect the Notes' value and price in the secondary market negatively. Another aspect of the credit risk is that a deteriorating financial position may cause Corem Group's credit rating to decrease, which could negatively affect the possibility for Corem to refinance the Notes at maturity.

Structural subordination and priority rights

The Notes constitute direct, unconditional, unsecured and unsubordinated obligations of Corem and shall rank at least pari passu with other unsecured and unsubordinated obligations of Corem. This means that a Noteholder in the event of Corem's liquidation, company reorganization or bankruptcy, normally would receive payment after any prioritised creditors (e.g. lenders or investors that have the benefit of security) have received payment. The Terms and Conditions of the Notes do not include a so called "negative pledge" undertaking and so Corem may post security to other lender, including for the benefit of holders of notes issued by Corem in the future or for the benefit of other lenders to the Corem. Such security would not secure the Notes.

Since Corem is a parent company to Corem Group's property owning companies, Corem is dependent upon receiving dividends and group contributions from its subsidiaries. The Notes are not guaranteed by any of these subsidiaries or any other company or person. This means that the Notes are structurally subordinated to any indebtedness raised in any of the property owning subsidiaries, and so the creditors of such indebtedness have priority over the Noteholders to the assets and revenue generated in the subsidiaries. The Terms and Conditions of the Notes do not include any restriction (other than indirectly by way of the interest cover ratio and the equity ratio covenant) on the ability of Corem to incur additional indebtedness, neither in Corem nor in any of the subsidiaries.

Corem has within the framework of its financing raised loans from credit institutions and has thereby pledged mortgage deeds in certain properties and shares in some of Corem Group's property owning subsidiaries. Corem also intends to continue seeking appropriate and attractive financing and may in connection thereto grant security for such financing (which may include secured capital

markets financing). The issuance of secured capital markets financing may negatively affect the liquidity, value and price of the Notes in the secondary market.

Each investor should be aware of the fact that there is a risk that the person that invests in the Notes may lose the whole, or parts of, his or her investment in the event of Corem's liquidation, bankruptcy or company reorganization.

Euroclear

The Notes will be connected to Euroclear Sweden AB's ("Euroclear") account-based system, why no physical notes have been or will be issued. Clearing and settlement at trading with the Notes, as well as payment of interest and redemption of principal amounts will be performed within Euroclear's account-based system. The investors are therefore dependent on the functionality of Euroclear's account-based system.

Noteholders' meeting

The Terms and Conditions for the Notes include certain conditions regarding the Noteholders' meeting, or a Written Procedure, that can be held in order to resolve matters relating the Noteholders' interests. The Terms and Conditions allow for stated majorities to bind all Noteholders, including Noteholders who have not participated in and voted at the actual Noteholder' Meeting, or Written Procedure, or have voted differently than the required majority, to decisions that have been taken at a duly convened and conducted Noteholders' meeting.

Noteholders' representation

In accordance with the Terms and Conditions, the Agent represents all Noteholders in all matters relating to the Notes. However, this does not rule out the possibility that the Noteholders, in certain situations, could bring their own action against Corem. To enable the Agent to represent the Noteholders in court, the Noteholders may have to submit a written power of attorney for legal proceedings. The failure of all Noteholders to submit such a power of attorney could negatively impact the enforcement of the Notes. Under the Terms and Conditions the Agent has the right in some cases to make decisions and take measures that bind all Noteholders.

2 PERSONS RESPONSIBLE

In April 2014 Corem issued the Note loan up to SEK 500 000 000 referred to in this Prospectus. The decision to issue the Notes has been taken by the Board. The estimated expenses related to the admission to trading are SEK 170 000.

The Notes are freely transferable and trading with the Notes between investors may occur from the date the Notes were issued.

- 7.3 If, due to any obstacle for the CSD, the Issuer cannot make a payment or repayment, such payment or repayment may be postponed until the obstacle has been removed. Interest shall accrue in accordance with Clause 8.4 during such postponement.
- 7.4 If payment or repayment is made in accordance with this Clause 7, the Issuer and the CSD shall be deemed to have fulfilled their obligation to pay, irrespective of whether such payment was made to a person not entitled to receive such amount.
- 7.5 The Issuer is not liable to gross-up any payments under the Finance Documents by virtue of any withholding tax, public levy or the similar.

8. INTEREST

- 8.1 Each Initial Note carries Interest at the Interest Rate from (but excluding) the First Issue Date up to (and including) the relevant Redemption Date. 19.2 Duties of the Agent

- 19.2.1 The Agent shall represent the Noteholders in accordance with the Finance Documents. However, the Agent is not responsible for the execution or enforceability of the Finance Documents.
- 19.2.2 When acting in accordance with the Finance Documents, the Agent is always acting with binding effect on behalf of the Noteholders. The Agent shall carry out its duties under the Finance Documents in a reasonable, proficient and professional manner, with reasonable care and skill.
- 19.2.3 The Agent is entitled to delegate its duties to other professional parties, but the Agent shall remain liable for the actions of such parties under the Finance Documents.
- 19.2.4 The Agent shall treat all Noteholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Noteholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 19.2.5 The Agent is entitled to engage external experts when carrying out its duties under the Finance Documents. The Issuer shall on demand by the Agent pay all costs for external experts engaged after the occurrence of an Event of Default, or for the purpose of investigating or considering (i) an event which the Agent reasonably believes is or may lead to an Event of Default or (ii) a matter relating to the Issuer which the Agent reasonably believes may be detrimental to the interests of the Noteholders under the Finance Documents. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 14 (*Distribution of proceeds*).
- 19.2.6 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.

19.2.7 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Noteholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.

19.2.8 The Agent shall give a notice to the Noteholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 19.2.7.

19.3 Limited liability for the Agent

19.3.1 The Agent will not be liable to the Noteholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect loss.

19.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts engaged by the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Noteholders to delay the action in order to first obtain instructions from the Noteholders.

19.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Noteholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.

19.3.4 The Agent shall have no liability to the Noteholders for damage caused by the Agent acting in accordance with instructions of the Noteholders given in accordance with Clause 15 (*Decisions by Noteholders*).

19.3.5 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Noteholders under the Finance Documents.

19.4 Replacement of the Agent

19.4.1 Subject to Clause 19.4.6, the Agent may resign by giving notice to the Issuer and the Noteholders, in which case the Noteholders shall appoint a successor Agent at a Noteholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.

19.4.2 Subject to Clause 19.4.6, if the Agent is Insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.

19.4.3 A Noteholder (or Noteholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice may only be validly given by a person who is a Noteholder on the Business Day immediately following the day on which

the notice is received by the Issuer and shall, if given by several Noteholders, be given by them jointly), require that a Noteholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Noteholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Noteholders that the Agent be dismissed and a new Agent appointed.

- 19.4.4 If the Noteholders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Noteholders, the Issuer shall appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 19.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 19.4.6 The Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent.
- 19.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Noteholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 19.4.8 In the event that there is a change of the Agent in accordance with this Clause 19.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agrees otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

20. APPOINTMENT AND REPLACEMENT OF THE ISSUING AGENT

- 20.1 The Issuer appoints the Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Notes.
- 20.2 The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the old Issuing Agent retires or is dismissed. If the Issuing Agent is Insolvent, the Issuer shall immediately appoint a new Issuing Agent, which shall replace the old Issuing Agent as issuing agent in accordance with these Terms and Conditions.

21. NO DIRECT ACTIONS BY NOTEHOLDERS

- 21.1 A Noteholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or

procure the winding-up, dissolution, liquidation, company reorganisation (*företagsrekonstruktion*) or bankruptcy (*konkurs*) (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the liabilities of the Issuer under the Finance Documents.

- 21.2 Clause 21.1 shall not apply if the Agent has been instructed by the Noteholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Noteholder to provide documents in accordance with Clause 19.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 19.2.7, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 19.2.8 before a Noteholder may take any action referred to in Clause 21.1.
- 21.3 The provisions of Clause 21.1 shall not in any way limit an individual Noteholder's right to claim and enforce payments which are due to it under Clause 9.5 (*Mandatory repurchase due to a Change of Control Event, Delisting Event or a Listing Failure*) or other payments which are due by the Issuer to some but not all Noteholders.

22. PRESCRIPTION

- 22.1 The right to receive repayment of the principal of the Notes shall be prescribed and become void ten (10) years from the Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be prescribed and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Noteholders' right to receive payment has been prescribed and has become void.
- 22.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Notes, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

23.2.2 In addition to Clause 23.2.1, if any information relating to the Notes or the Group contained in a notice the Agent may send to the Noteholders under these Terms and Conditions has not already been made public by way of a press release, the Agent shall before it sends such information to the Noteholders give the Issuer the opportunity to issue a press release containing such information. If the Issuer does not promptly issue a press release and the Agent considers it necessary to issue a press release containing such information before it can lawfully send a notice containing such information to the Noteholders, the Agent shall be entitled to issue such press release.

24. FORCE MAJEURE AND LIMITATION OF LIABILITY

24.1 Neither the Agent nor the Issuing Agent shall be held responsible for any damage arising out of any legal enactment, or any measure taken by a public authority, or war, strike, lockout, boycott, blockade or any other similar circumstance (a “**Force Majeure Event**”).
